---

Dear Director,

I hope this message finds you well.

My name is Onyedikachi Onwe, and I'm reaching out on behalf of **Atlas Kenji Limited**, a specialized IT networking and infrastructure services provider with hands-on experience supporting projects across Nigeria.

We understand that managing multiple client sites or large-scale deployments can stretch internal capacity. That's why we're proposing a **strategic subcontracting partnership** where we support your technical operations with reliable, skilled, and cost-effective execution.

### 🔧 Our Core Capabilities:

- Structured LAN cabling, patch panel & rack installations
- Branch network setup & ISP coordination
- Enterprise Wi-Fi deployment
- IT support & user troubleshooting
- Project documentation & reporting

We have a track record of delivering for banks, schools, and SMEs across Enugu, Owerri, Awka, Onitsha, and beyond — always meeting deadlines with high professional standards.

If your team ever requires trusted hands for expansion projects, overflow work, or location-specific tasks, Atlas Kenji is ready to collaborate.

Let's discuss how we can support your next project.

Warm regards,

**Onyedikachi Onwe**

Lead Network Consultant, Atlas Kenji Limited
